Industrial and recycling  
(Owamah, 2013).  
t in water systems, and  
ge, and cancer  
to leaching of Pb and Cd  
l recycling facilities.  
nal to Metal Recycling  
from surrounding  
potential environmental

Results

| Metal | Highest Co |
|-------|------------|
| Pb    | 1.60       |
| Cd    | 1.10       |
| Cr    | 1.32       |
| Fe    | 1.11       |
| Zn    | 1.30       |

Conclusions

- ❖ Metal Recycling Ltd. (mg/L) exceeded WHO
- ❖ Allcycle.ng also had h
- ❖ Hazard Index (HI) val
- and Pb.
- ❖ Cancer risks (CR up t
- and Cr.
- ❖ Urgent need for monit
