

Development of a milestone-based competency list for obstetric anesthesia residency training through Delphi expert consensus

Maytinee Lilaonitkul¹, MBBS, BSc; Christopher Cosden¹, MD; John Markley¹, MD PhD; May Pian-Smith², MD, MS; Grace Lim³, MD, MSc; Peter Yeh¹, MD; Pedram Aleshi¹, MD; Christy Boscardin¹, PhD and Ronald B. George¹, MD FRCPC

1. University of California San Francisco 2. Massachusetts General Hospital and Harvard Medical School 3. University of Pittsburgh

◉ Standard of anesthesia residency training

- Generic ACGME framework
- Lacks specific directives for obstetric subspecialty

#OBAnes

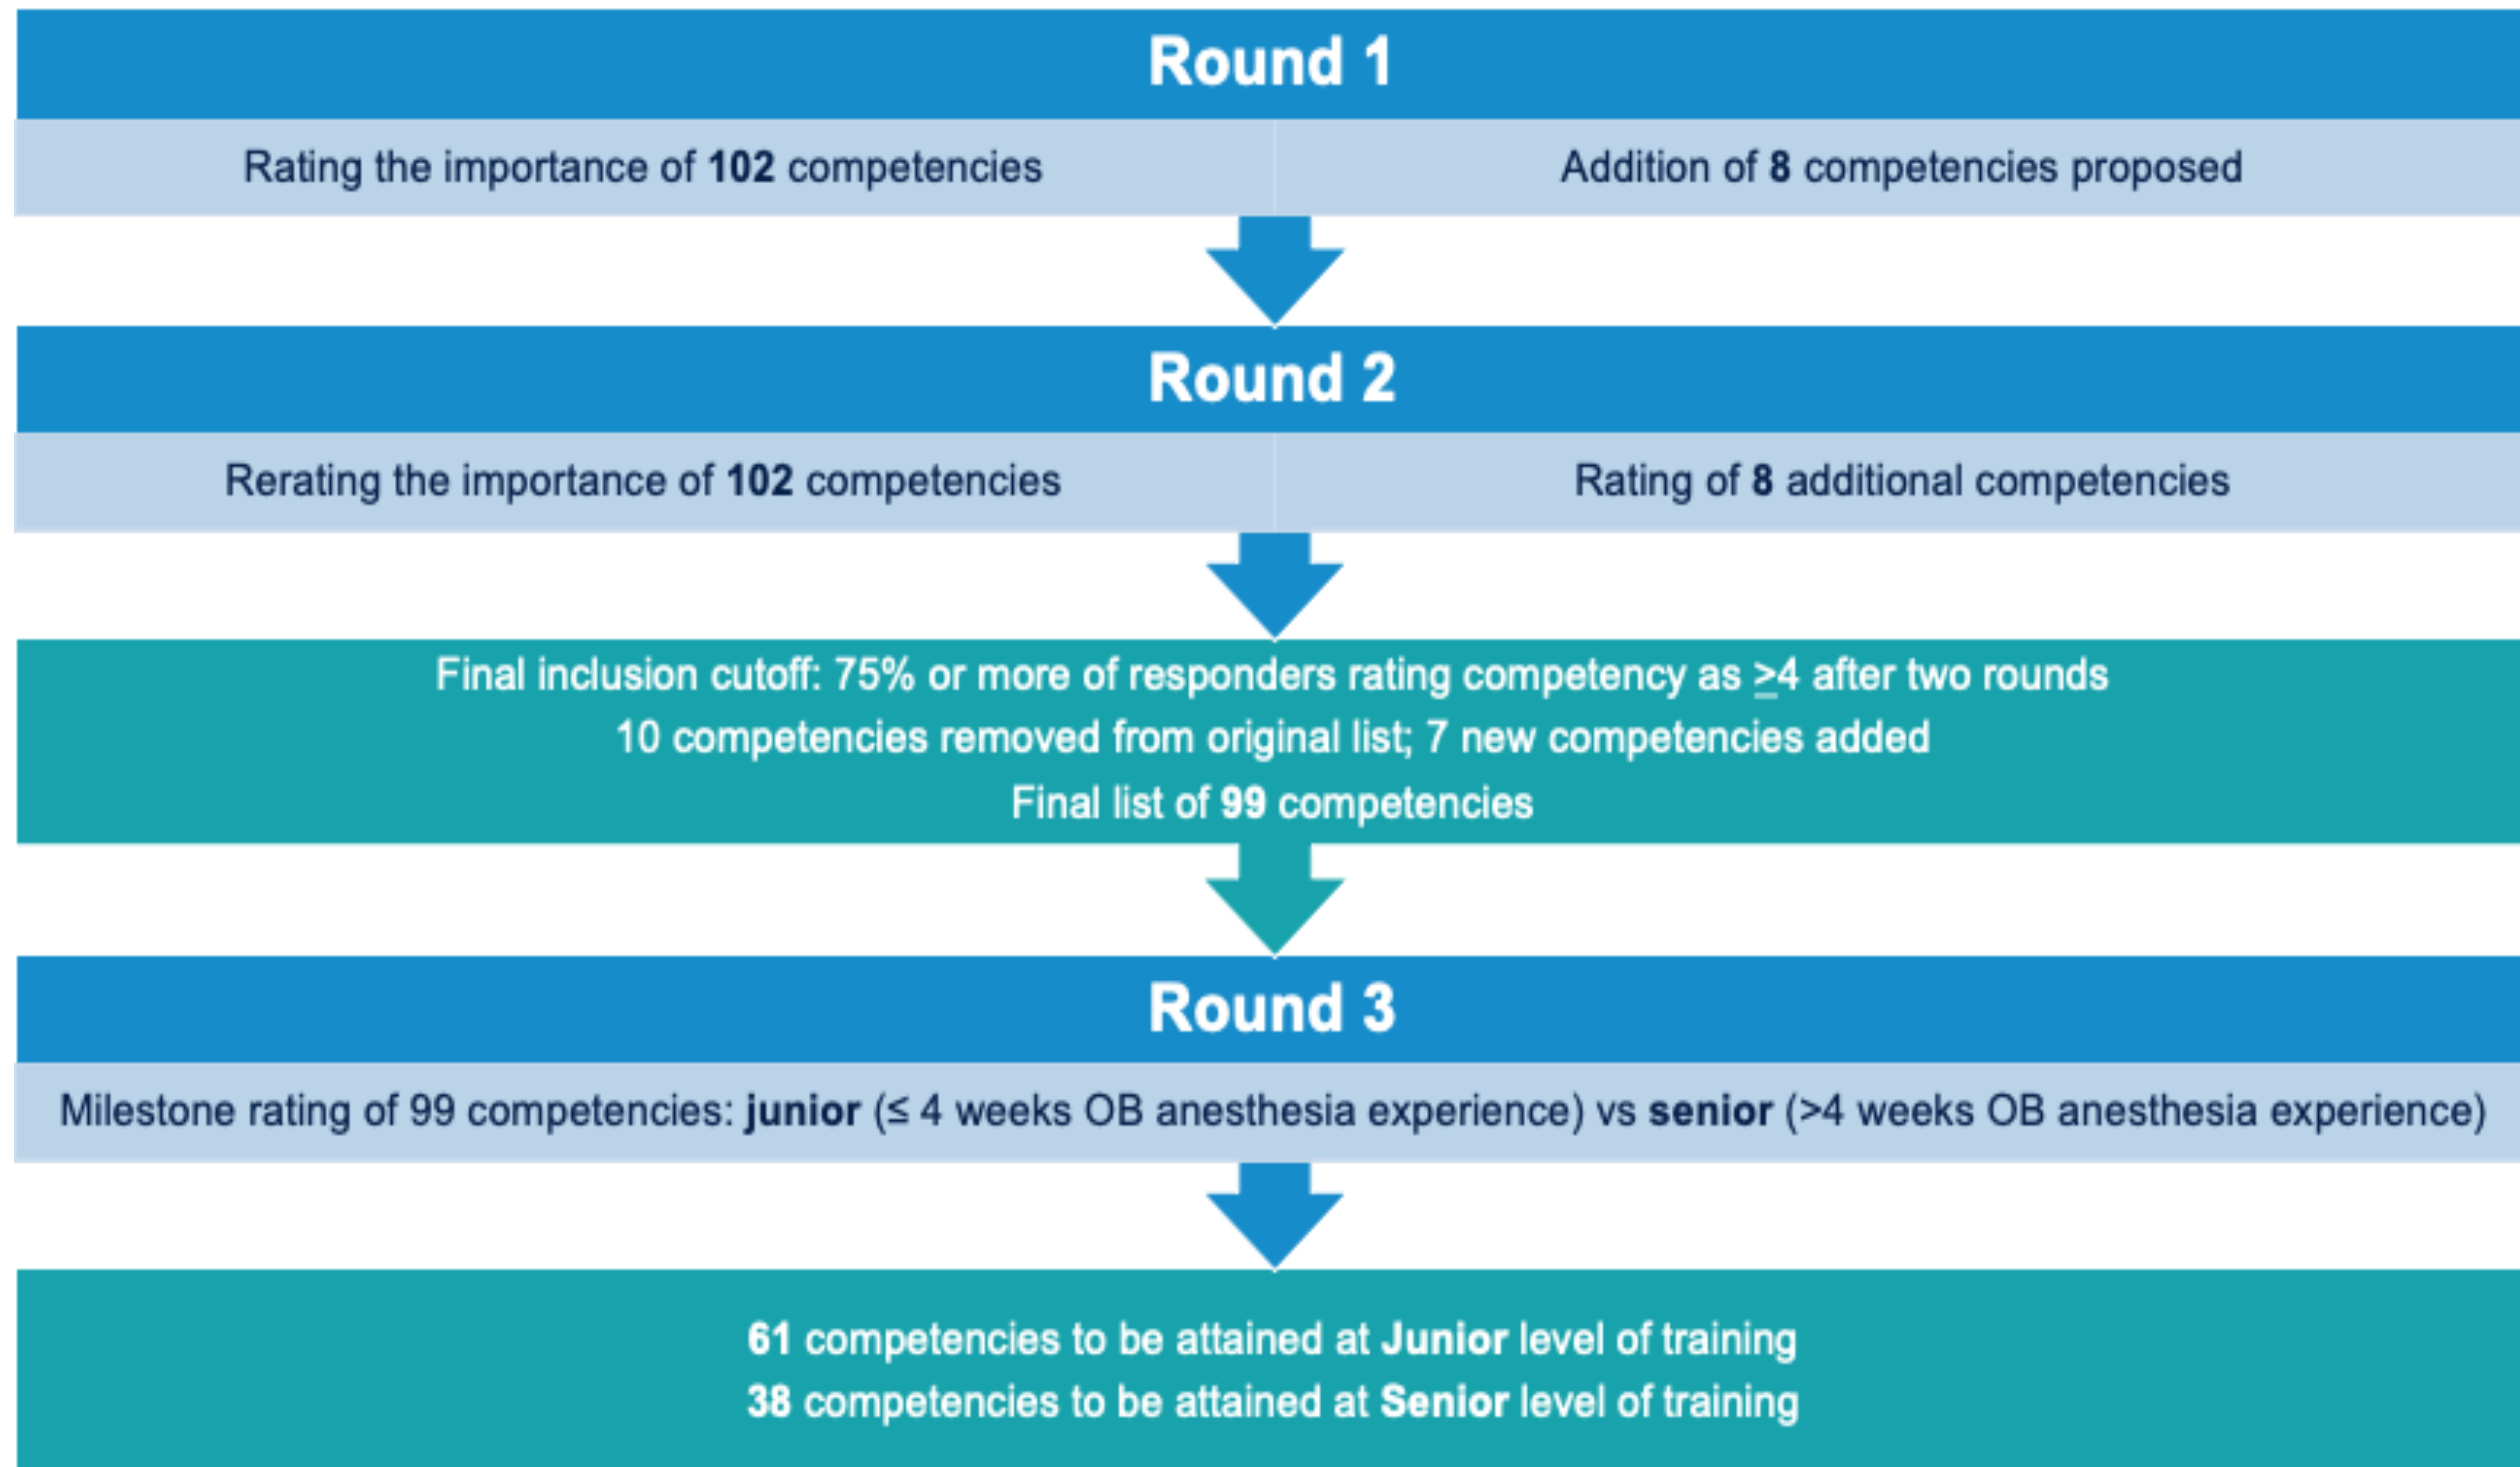

Residency

Milestones

◉ Aims of project

- Identify essential competencies in obstetric anesthesia through Delphi expert consensus
- Determine at what level of training these competencies should be attained

Flow diagram illustrating three survey rounds of the Delphi Study

Results and Discussion

- ◉ **Response rate** (n=16): Round 1 (81%); Round 2 (75%); Round 3 (56.3%)
- ◉ **99 essential competencies** were derived – 61 junior and 38 senior
- ◉ **Next steps:**
 - Plan education strategies to target specific competencies
 - Guide evaluation methods to assess attainment of competencies
